

Job Title: Market Research Analyst

Location: Sector 49, Gurgaon

Job Type: Full-time

Department: Market Research Analyst

About:

Quantish has become one of the leading market research service providers in the region. We connect organizations with audiences around the world to support informed, data-driven strategies, and identify growth opportunities, and always strive to complete projects thoroughly and accurately, on time, and on budget.

- We excel in crafting and executing B2B research initiatives, enabling us to create successful strategies by comprehending target audiences, innovating products and services, and establishing strong brand identities.
- The retail and consumer packaged goods industries are consistently shaped by evolving consumer preferences, behaviors, and attitudes. Allow us to assist you in adapting to these shifts through consumer market research solutions that enhance your marketing strategy, positioning your brand for success in a dynamic environment.

Job Summary:

We are seeking a detail-oriented and analytical Market Research Analyst to join our team. The ideal candidate will be responsible for collecting, analyzing, and interpreting data to help our clients understand market trends, customer preferences, and competitive landscapes. This role will play a critical part in shaping business strategies and decision-making processes.

Key Responsibilities:

- **Data Collection and Analysis:**
Conduct primary and secondary research to gather data on market conditions, consumer behavior, and industry trends. Utilize surveys, interviews, focus groups, and other research methodologies to collect relevant data.
- **Market Trend Analysis:**
Analyze data to identify patterns, trends, and insights that can inform business strategies. Monitor and forecast market trends, competitor activities, and customer preferences.
- **Reporting and Presentation:**
Prepare detailed reports, dashboards, and presentations to communicate findings to stakeholders. Translate complex data into actionable insights for non-technical audiences.
- **Competitive Analysis:**
Research and evaluate competitors' products, pricing, and market positioning. Provide recommendations to enhance our competitive edge.

- **Customer Insights:**

Analyze customer feedback, surveys, and behavior to identify opportunities for product or service improvement. Segment target audiences and develop customer profiles.

Qualifications:

Graduation and above

Preferred Skills:

- Strong analytical skills with the ability to interpret large datasets.
- Excellent written and verbal communication skills.
- Strong attention to detail and problem-solving abilities.
- Ability to work independently and as part of a team.

What We Offer:

- Opportunities for professional growth and development.
- A collaborative and innovative work environment.
- The chance to make a meaningful impact on business strategies and improving analytical skills.

Experience:

0-1 year
